OBJECTIVE
Passionate Software Developer looking for junior to mid-level front end/ full stack developer. Proficient in full-stack development, particularly the MEAN and MERN stack

SUMMARY
I am a determined developer with a particular passion for solving everyday problems in effective ways. Most recently, I joined the AI team as full stack web developer using MEAN stack. I am dedicated to constantly learning and looking for an opportunity where I can make a meaningful contribution to a team.

TECHNICAL SKILLS
Programming Languages: JavaScript, TypeScript, JQuery,, HTML, HTML5
Frameworks: Angular4+, Bootstrap, NodeJS, ExpressJS, React, graphQL
Databases: MongoDB, Mongoose, NoSQL, mlab
Deployment: AWS deployment, Heroku

WORK EXPERIENCE
Kalani Consulting(Crystal City, VA)   Jan, 2020 – Present
Software Developer
- Worked with React.js, graphQL and node.js full stack development
- Refactored existing global header and built Portfolio app in global header with React Material UI components
- Refactored switching existing JavaScript react components to Typescript react components with code-gen
- Created Queries to fetch the data related to portfolios and users
- Created Mutations for data related to users' portfolios
- Involved in graphQL server, created model, resolver, and schema to interact with client-side
- Generated code-gen for typescript graphQL server-side and client-side
- Used github for version control

United Solutions, LLC(Rockville, MD)   Jan, 2019 – Dec,2019
